THE COMPANY

CONSUMERS HISTORY

In 1977, an idea was conceived: A unique retail concept giving the general public the ability to facilitate a complete do-it-yourself home renovation project at an affordable price, by providing all of the necessary product, instructions, design services and support required. Because we were dedicated to servicing the American consumer, the name "Consumers Specialty Supercenters" was adopted. Consumers has evolved into the nation's fastest growing specialty retailer serving the metropolitan New York market, employing over 200 of your Long Island neighbors and maintaining modern facilities exceeding a quarter of a million square feet.

Our commitment to remain America's largest independent supplier, fulfilling Long Island's home improvement and furnishing needs has been the key to our long term success. Combined with millions of dollars in "state-of-the-art" computerized technology, innovative designer showrooms, and the optimum in warehousing and delivery equipment, those ideals will continue to be foremost in our continued growth and success.
